Number 2

Bridgeport, Conn., September 21, 1961

Volume 31

## 33 ADDED TO FACULTY

President James H. Halsey, has announced the appointment of 33 new full-time faculty members for the 1961-62 academic year.

The addition of thirty-three faculty members, brings to a record total of 166 the number of full-time faculty members on the University staff. Approximately 135 part-time members will also undertake teaching assignments during the 1961-62 academic year.

Dr. Arthur E. Trippensee, dean of the College of Education announces the appointment of 12 new faculty members. Appointments include: Dr. John R. Braun, associate professor of psychology; Dr. Owen C. Greer, associate professor of elementary education; Dr. William J. Beuller, assistant professor of guidance; Dr. Theresa A. Jones, assistant professor of education; Lorin C. McMacklin, assistant professor of education; Charles E. Moore, assistant professor of secondary education; Dr. Anthony M. Graziano, instructor of psychology; and Robert Vehar, instructor in music.

New members of the faculty of the Arnold College Division of Physical Education, College of Education include: Dr. Helen A. Spencer, assistant professor; Sidney Stein, assistant professor; Miss Nina R. Malinak, instructor; and Miss Virginia Wooten, instructor.

Six new faculty members have been appointed to the College of Arts and Science according to Dr. Clarence D.L. Ropp, dean of the College.

Appointments include: Dr. William Garner, professor of physics; Majorie L. Deets, assistant professor of chemistry; Christopher Collier, instructor of history; Donald Kuehner, instructor of mathematics; Cornelia J. Monroe, instructor of biology; and Frances Russel, instructor of sociology.

Dean Willard P. Berggren of College of Engineering announces the appointment of six new faculty members.

Appointments include: Abraham Asch, associate professor of mechanical engineering; Arjan D. Ahuja, assistant professor of electrical engineering; Mathias Hettinger, assistant professor of engineering; Preben Jensen, assistant professor of mechanical engineering; Robert Fletcher, instructor of industrial design; and John O. Page, instructor in electrical engineering.

Dean Martha Jayne of the College of Nursing has announced the appointment of five new faculty members.

Appointments include: Miss Anna Miller, assistant professor; Miss Ruth Mary Carty, instructor; Miss Sara Ann Healey, instructor; Mrs. Else N. Schulze, instructor; and Miss Madeline Krok, instructor.

Earle M. Bigsbee, dean of the Junior College of Connecticut announces the addition of four new faculty members including: Dr. Eileen A. Lord, associate professor of art; Miss Isabelle M. Koehler, associate professor of nursing; Miss Alice Marci, instructor in secretarial studies; and Peter Schier, instructor in art.

Dr. Braun, 618 W. Jackson avenue, will enter the University as chairman of the psychology department. He received his B.A. degree from Long Island University and his Ph.D. degree from the University of California. Braun, who has written various works on child study, was associated with the University of California, Carlton College, and more recently was chairman of the psychology department of Texas Christian University.

Dr. Greer, 75 Lafayette street, received his A.B. degree from the University of Redlands and M.A. and Ed.D. degrees from Stamford University. He has taught at state colleges in California and has had articles published in various educational journals. Dr. Greer will teach in the field of elementary education at the university.

Dr. Beuller, of Amherst, Massachusetts is president of Phi Delta Kappa and a member of several guidance associations. He received his B.S. degree at the University of Vermont and his M.S. and Ed.D. degrees at Pennsylvania State University. Beuller was previously associated with the University of Massachusetts and will teach guidance at the University.

Dr. Theresa A. Jones received her B.A. degree from West Virginia University and her M.S. and Ph.D. degrees from Teachers' College, Columbia University. Dr. Jones, a member of various community organizations, has been associated with West Virginia, Pennsylvania State, and New York universities. She will teach foundations of education at the college.

Lorin C. McMacklin graduated

with a B.M. degree from Illinois Wesleyan University, received his M.S. degree at Southern Illinois University and has completed his requirements for his doctorate at Indiana University. He will receive the doctoral degree at commencement ceremonies next year. McMacklin is a member of the National Education Association, Phi Delta Kappa, and the Philosophy of Education Society.

Charles K. Moore did his undergraduate work at State Teachers' College in Bloomsfield, New Jersey, and received his M.A. degree at Western Reserve University. Moore has been teaching at DePauw University over the past five years. He will be instructing in secondary education and will supervise the students performing their practice teaching.

Dr. Graziano received his B.A. degree at Columbia College, his M.A. degree at Michigan State University and his Ph.D. degree this past June at Purdue University. (continued on page 5)

## University Gets Record Loan Fund

The University is the recipient of a \$97,290 student loan fund grant for the 1961-62 school year under the National Defense Education Act, Pres. James H. Halsey has announced. The grant is the largest ever received by the University under the federal student loan program.

A total of \$299,649 in federal loan funds has been received by the University since the program began in 1959, President Halsey said. He noted that a total of 329 students have received financial assistance to date under the loan program which was first made available in 1959.

The major portion of the current loan fund grant has already been committed to students who filed tentative applications in the past spring semester, President Halsey stated. A portion of the fund will be available, however, for emergency situations.

## Frosh Released For Off-Campus

The shortage of dormitory space made it necessary to allow some freshmen to live off campus this year, said Robert O'Sullivan, head of men's residence.

Off-campus opportunities were not limited to only seniors and juniors, as had been planned, O'Sullivan said. Several freshmen and sophomores have been given the privilege, he noted, but will be called back to the dormitory when space becomes available. Requests for living off campus do not need parental approval, although it is recommended. The houses and dorms off campus are always open for University officials to visit and inspect, he added.

Requests for living off campus are considered by certain qualifications. One is the submission of the residence hall deposit; two, the individual's class status; third, his age; fourth, his being a veteran; and fifth, his grades.

About 300 freshmen are being housed in the men's dormitories this year and there are several more on the waiting lists. The new dormitory, which holds 450, could be over crowded if it were not for off campus living, O'Sullivan said.

A NEW QUEEN is crowned. The face of Linda Dooley is wreathed in victor's smile as she is elected Freshman Queen for 1961 at the Freshman Ball held last Saturday night at the Gym.

## Full Credit Is Offered For TV Biology Course

The University will offer college credit for the television course, "The New Biology" which will be nationally televised beginning September 25, according to Pres. James H. Halsey.

Channel 2, New York, will carry the TV presentation daily from 6:30 a.m. with Channel 3, Hartford, carrying the program from 7:30 a.m., during the 1961-62 academic year. More than 160 stations plan to carry the televised "College of the Air" series broadcast by Columbia Broadcasting System and produced by the Training Resources Institute.

Dr. Ray Koppelman, assistant

professor of biochemistry, University of Chicago will teach the television course. Course material is designed to provide a fundamental grounding in biology on the college level.

Eight semester hours of credit will be granted by the University for the successful completion of the course, including four hours each during the fall and spring semesters.

Participants must follow the TV presentation each morning as well as meet one night per week at the University for a three hour session. Discussion of topics covered on TV as well as laboratory experiments will be conducted on campus.

Accepted applicants will be registered as "special students" at the University. Each student must register for the full academic year. Registration fees as well as tuition for the eight semester hour course will total \$176. Each student will be expected to obtain a study guide as well as one of the suggested texts.

## Much-Published Dr. Roucek Has New Articles in Print

Dr. Joseph S. Roucek, chairman of the University's political science and sociology departments, currently has the following books and articles either in print or about to be printed.

The first issue of "V.O.C. Journal of Education," published by Teachers' College, Tuticorin, India, with Dr. Roucek as its American editor, has just been released. "The Sociology of Crime," a series of articles written by Professor Roucek, was just accepted for publication in the revised edition of Grolier's Encyclopedia.

About ready to be published by the Philosophical Library is "The Unusual Child," a volume written by outstanding American authorities and edited by Roucek. The current issue of "Il Politico" (University of Pavia, Italy), of which Dr. Roucek is the American editor, has just published as its leading article his "The Vote of the American Minorities in President Kennedy's 1960 Election."

Dr. Roucek's article, "Ideology as an Aspect of the Sociology of Knowledge" is now appearing translated in "Sociologia," a periodical sponsored by Fundacao Escola De Sociologia E Politica De Sao Paulo, Sao Paulo, Brazil. Scott, Foresman & Co. of Chicago is printing "The Neglected Aspects of American Education," prepared by Prof. E. Grass of Stanford University and Dr. Roucek.

The Revista De Estudios Politicos, Madrid, Spain, will publish in the forthcoming issue a translation of Roucek's article, "The Geopolitics of the Mediterranean." The Indian Journal of Social Research, published by J.V. College, Baraut, Meerut, U.P. (India), of which Prof. Roucek is the American editor, is bringing out a special issue next month under the editorship of Roucek devoted to "The Sociology of the Arts."

The Slavonic Department of the University of Montreal, Canada, has invited Dr. Roucek to deliver its annual department-sponsored lecture in Slavic affairs for the University and general public on "The American Immigrant in American History." Littlefield, Adams Co. has announced that it will republish "Contemporary Political Ideology" and "Contemporary Sociology," two recent books edited by Dr. Roucek and originally published by the Philosophical Library.

### WHO'S WHO

Applications for "Who's Who in American Colleges and Universities" are now available in Alumni Hall, the Library, the Dining Hall, and the Student Council Office. They must be in the Student Council box, second floor Alumni, or in the Student Council office by Oct. 5.

THE BEANIE COURT summonses flowed freely last week. Upperclassman Bill Dixon issues one to Sharon Phalen, as Howard Rhodes awaits his turn.

## Submarine Seen Most Potent Weapon

by Frank Macomber  
Copley News Service  
(SPECIAL TO THE SCRIBE)

The "silent service" is becoming the most potent military force in the world.

Military experts in and out of the Pentagon seem to agree that the atomic-powered submarine, armed with Polaris missiles, soon will become the greatest U.S. deterrent to war.

The nuclear submarine can

move about in 30 million square miles of the oceans. It is virtually invulnerable.

It is destined ultimately to replace the Strategic Air Command bomber as America's prime deterrent.

The Air Force always has argued that aircraft carriers are sitting ducks for an enemy's bombs or missiles and therefore not reliable as a strategic deterrent. But even the most loyal Air

Force officer can't argue with the theory that a submerged submarine which can carry Polaris missiles to within range of any target in the world is the "ultimate" weapon in the modern U.S. arsenal.

Significantly, President Kennedy has pledged five Polaris submarines for defense of Europe as part of a U.S. effort to reinforce defense of the North Atlantic Treaty Organization. They will be available to NATO forces by 1963.

Last year the U.S. submarine service observed its 60th birthday. In six decades the service has taken giant strides. The next decade will dwarf developments of the last 61 years.

Take a look at what the Navy plans for its sub service in the next 12 months: Nine Polaris-armed atomic submarines will go to sea. The number of nuclear submarines in the Pacific will be doubled.

A full submarine division and rescue ship will be maintained in the Mediterranean to operate with the U.S. Sixth Fleet. The first submarine tender built since World War II will be launched. It is designed specifically to support nuclear and Polaris-firing subs. By 1970 the Navy intends to have 45 Polaris submarines in the Pacific and Atlantic fleets. Additionally there will be about 33 atomic-powered attack submarines in the Atlantic and 20 in the Pacific.

By then, too, the atomic power-plant which drives submarines will be improved to develop even more power and operate more quietly than the early-day "Model T" reactor.

Reflecting increased emphasis on the Polaris submarine, nearly 50 per cent of President Kennedy's request to Congress for \$2.7 billion in new obligatory authority will be channeled into the program which weeds the Polaris missile and the nuclear submarine.

The first class of five Polaris A subs has been completed. The George Washington is on her second "combat ready" cruise in the North Atlantic with 16 nuclear-tipped missiles aboard. Her sister ship, the Patrick Henry, has completed a cruise and is at Holy Loch, Scotland, being serviced by the tender Proteus.

The Theodore Roosevelt, the Robert E. Lee and Abraham Lincoln are on the east coast undergoing sea trials before joining the fleet.

By April, 1962, the four ships of the Ethan Allen class will be in service. Ten other Polaris subs are being built and the President has asked for funds to construct 10 more quickly. That would mean 29 by the end of 1964.

At this one-a-month rate the Navy will have 45 of its Polaris subs by March, 1966. That, says Adm. Arleigh A. Burke, chief of naval operations, is the Navy's goal.

## Space Special

### A Woman Space Pilot?

Copley News Service  
(SPECIAL TO THE SCRIBE)

Women may be better space pilots than men.

This is the conclusion of scientists and engineers who have been working on space flight simulations for more than a year at the Martin Co. in Baltimore. Martin men—and women—have flown millions of accurately-simulated miles in outer space from a room inside the Baltimore plant.

The experiments also have proven that the rendezvous of space vehicles with each other while in orbit around the earth can be controlled manually by a spacecraft pilot thus eliminating the complexities of automatic controls.

The simulator equipment which duplicates all the guidance aspects of space travel, was built by Martin to study firsthand the problems of bringing two spacecraft together on the same course and speed in orbit.

Scientists realize that such maneuvers will be vital in the future when large space stations are built with fuel depots in orbit nearby.

The findings of the Martin experiments have served as a valuable tool in a Project Apollo feasibility study the company is conducting for the National Aeronautics and Space Administration.

Apollo is scheduled by NASA as its prime manned space vehicle — a sort of orbiting space laboratory. Its eventual target will be orbits around the moon and finally a "soft" landing on the moon. The Apollo space vehicle will be hurled into deep space by the Saturn rocket.

Most information about space travel has been reduced to a form that computers can evaluate. The Martin-built machine duplicates a spacecraft's guidance system, the mathematical proportions of a vehicle itself, and the natural forces known to exist in space.

E.E. Clark, Martin's director of advanced programs, says the simulators have answered questions about specific missions, fuel requirements, time needed to reach objectives in space, maneuver methods, thrust levels, and pilot training.

"As presently conceived," explains Clark, "the spacecraft will be under the complete control of its crew. The flight simulators have demonstrated that man's brain can pay for his weight better than complex automatic machinery."

"Man can accomplish a rendezvous with another vehicle in outer space using simple, lightweight guidance equipment which requires little training to operate."

"And incidentally, we find that women usually catch on to the space rendezvous controls faster than men. They usually come alongside the other vehicle in their first or second try."

"Somehow the secretaries get the manual feel of space driving immediately. Possibly they concentrate on the simple maneuver with no side thoughts on the scientific problems involved."

## Cooper Girls Routed by Bomb Scare

A hoax phone call to Cooper Hall recently touched off a bomb scare resulting in 150 coeds being routed from their beds in the early morning hours.

At about 2 a.m., Marcia Brawer, a freshman, answered the phone on the third floor of Cooper Hall and heard a young male voice say, "There is a bomb planted in the basement. Call the police immediately."

The caller then hung up, and Miss Brawer notified Judith Hays, the head resident. The Bridgeport police and fire departments were called, and arrived at the scene with seven fire engines at about 2:45 a.m.

The 150 girls that live in Cooper were evacuated as the firemen began a thorough search of the premises, which revealed nothing, and the bomb scare was classified as a hoax.

Fire Chief Sylvester Jennings commented, "The person responsible for the telephone call obviously has a diseased mind," and added that registering such false alarms deprives the city of its rightful protection.

Jennings said that false alarms normally average 115 a year, but that there had been about 160 in the past eight months, and that serious accidents have occurred because of false alarms.

Mrs. Olive Wright, dean of women said that the young man who caused the hoax may have done so unthinkingly — as a joke, and expressed hope that he might accept the responsibility for the danger he caused.

## Vox Populi Wolff Commends Frosh Committee

To the Editor:

The Freshman Week Committee, under the co-chairmanship of Dan Ianiello and Dan Brewster, did a tremendous job in helping to orient the class of 1965 to the University. The members of the Committee began meeting a few months ago and spent countless hours in planning this successful program.

On behalf of the administration, I wish to thank all the members of the Freshman Week Committee for the fine service which they performed for the freshman class.

Dr. Alfred R. Wolff,  
Dean of Students

Campus Thunder casting tryouts for the "Queen of Diamonds" will be held next Tuesday and Wednesday, 7:30-9 p. m. in the Drama Center.

## Record Roundup

Copley News Service

(SPECIAL TO THE SCRIBE)

In recent months, three albums have earned recognition as the best packages available today.

Eileen Farrell's "I've Got a Right to Sing the Blues" on Columbia should be in every record library. The label, showcasing the jazz side of the Metropolitan Opera star, brings a voice to the pop field which is usually reserved only for the concert and operatic stages.

"The Musical World of Redgers and Hammerstein," released by MGM Records, is a collector's item. This is a two-LP package that includes a recorded portrait of the late Oscar Hammerstein II. Conversations between Hammerstein and Arnold Michaelis reveal much of what motivated Oscar to write such great lyrics. There is much here too for personal reflection. This is an album you will keep putting back on the turntable at intervals to hear again Oscar's philosophy of life. Of course, there is also beautiful music as the Starlight Symphony, conducted by Orandel, performs great songs from "Oklahoma," "South Pacific," "The King and I," "Sound of Music" and "Carousel." This album also belongs in every school library.

"Judy at Carnegie Hall" on Capitol is the newest among these releases. Judy Garland never sang better than on this night in New York. There will be those who argue she is not the best pop singer around today. But it is doubtful that anywhere on records is a performance by a gal singer that will surpass this one. This was one of those nights when the artist was flawless throughout (32 numbers) and the technicians were on hand to put it on tape.

**SPOON (Reprise)** - When Frank Sinatra launched his Reprise label there was some question about his getting top flight artists. Here's one of the best - Jimmy Witherspoon. "Spoon," usually associated with the blues, is given a much wider range in this set and he's up to it. Tenny Edwards' tenor sax work and S. Zenter's trombone sets are tailored into topnotch arrangements. Jimmy gives great readings on "Ain't Misbehavin'," "Just One More Chance," "Just A-Sittin' and A-Rockin'."

## YAF Schedules First Meeting

Dewitt Copp, noted lecturer and author, and master at St. Luke's school, New Canaan, will address an open meeting of the University's chapter of Young Americans for Freedom, on Tuesday, Sept. 26, at 7:30 p.m. in the Cultural Center of the Library. The meeting is open to the public.

Copp will speak on "The Far Eastern Situation Today." He is the author of "Betrayal at the UN," and has recently returned from an extensive study trip through Asia during which he visited Formosa, Macao, Quemoy, Matsui and Hong Kong. A new book by Copp, detailing his recent Far Eastern experiences is scheduled for publication next February.

A question and answer period will follow Copp's address.

## Halsey Named UN Day Head

John Dempsey, Governor of the State of Connecticut, has re-appointed Dr. James H. Halsey, president of the University as state chairman for United Nations Day which will be celebrated on Oct. 24, it was announced today. Halsey has served as state chairman for the annual UN Day activities since 1954.

Fifty-seven chairmen have been appointed by mayors or first selectmen in towns throughout the state to head local UN day activities, Dr. Halsey reported.

## UB Human Relations Seminar Begins

A seminar in Human Relations is being offered at the University this semester, according to an announcement by the Human Relations Center recently established on the University's campus.

There will be fifteen weekly sessions.

The seminar will be directed by Dr. Abraham E. Knepler, director of the Center. Assisting him will be Frank Corbett, executive director of the Bridgeport Inter-Group Council, a United Fund agency.

According to Dr. Knepler, the contents and procedures of the seminar are planned "to increase the effectiveness of professional persons who work with groups and who require special understanding of particular kinds of groups."

He stated: "This particular seminar will be especially helpful to teachers, social workers, graduate nurses, guidance and other professional workers - workers whose daily routines bring them into close contact with people of different racial, religious and economic backgrounds," he added.

Dr. Knepler went on to explain: "Much of the contents of the course will be devoted to examinations of typical community problem situations and the human relations principles that apply in them. Also, various kinds of teaching aids and group processes will be used to describe some of the latest techniques for problem-solving and for developing good relationships between different groups - both in schools and in community organizations," he said.

The Human Relations Center was established to provide greater Bridgeport with a specialized resource for training new leaders and for developing the kind of

skills which community leaders require in order to cope with the human relations problems which confront them. In addition to the seminar, the center is preparing to render special assistance to the city government, industry, labor and civic groups in the community.

The seminar may be taken for

graduate credit. Persons not desiring credit may audit the course at the regular tuition rate - insofar as facilities will allow. Arrangements for enrolling may be completed in advance by writing to or calling either the Center's office at the University, or the Bridgeport Inter-Group Council, 460 Washington Avenue.

## Along Park Place

with ED COFFEY and PAT GENTILE

The Frosh have suddenly come to the rash conclusion that college is different from all other types of life. However, our spy system tells us that a couple of new campus beauties are having a little trouble getting to sleep nights. Just wait awhile girls, bigger and better things are yet to come.

One of the Frosh has had a little trouble. Seems that Jim Ashmore had a rough time find-

ing the men's room in Alumni. Jim Ruscoe is having difficulty quite extraordinary. He has trouble trying to stop himself from standing on Alumni Hall cafeteria chairs and screaming profanities. Must be some sort of Freudian explanation. Perhaps some of our upperclass psychology majors could help him out.

Linda Posner has a nice attitude - look but don't touch. Wonder if her pinmate agrees

wholeheartedly. Ollie Tenney has relinquished the black and gold T.S. pin to Pat Gunther of Stratford. Our congrats to Lynn Ormsby of B.G. who is now wearing a similar pin. Sonny (never-never-never) Gorrall has gone the straight and narrow. No more motorcycles and pool halls, Sonny.

Freshman Week saw some spirit displayed on the steps of the Library. Too bad the Frosh mobbed you, Danny. Sandy Case has no idea how much her return to the campus is appreciated. Best wishes go to Bob Wolfe and Janice Morganroth who were pinned this summer. How was Hawaii?

Shirley Moran is looking for a teacher of sorts. She has a little trouble remembering names. Can prove embarrassing. Right Shirley? Rumor has it that Al Tucker can't tell the dif-

ference between frosh and seniors.

Leslie M., did the phone call to Joan from the good old sunny southland concerning one Harry S. prove faithful? Is it true that "Shag" Copka is making plans to meet Paula at the altar soon?

We hear rumors that O.S.R. brothers, Boola and Digger had a private party this past weekend. What's going on fellas? Congrats Al Koperwhats and Sally Safko who are planning marriage.

Jack Cunningham, what happened to the triangle? Does Kathie W. have a clear field now, or is Marylou still the one? Wanted: the two girls who made O.S.R. Wisteria Weekend a hit last spring. A reward is being offered for any information leading to their whereabouts.

Kathie Wasko, there's a new line-coach this year. Good luck on all your future endeavors. Note to all females looking for a room: 56 Pine Creek Ave. is no longer a girl's dorm. Best wishes are extended to the new Mr. and Mrs. Gerald Patrick.

Looks to us like Tootsie has her hooks in for Howie Swanson. She's taming him down, at least.

Larry Schaefer insists that the well dressed college student is in style on campus, as well as East Meadow, Long Island, with no socks. Straighten up, Frosh.

Was it George Cocao who was seen rolling a few eggs (raw) down Park Place this week as a Beanie Court penalty?

We heard Maureen McGuire is going out for the basketball team this year. The grapevine also tells us that Big Red Bolk plans to settle down a bit. Good job, Mo.

## Student Of the Week

Lois Wiederschall, a second semester junior majoring in psychology believes that, "four years of college education can be wasted if the student does not apply himself to worldly experiences along with the experience of a formal scholastic education."

As valedictorian of her Harrison High School graduating class, Lois received a New York State Department of Education scholarship as well as a scholarship from the University.

This year Lois is president of Women's Residence Association (previously known as women's House Government).

Lois spent her freshman year at Duke University where she was first in her class, a member of the National Latin Honorary Society and the Freshman Scholastic Honor Society of Duke.

Art, music and drama are Lois's favorite hobbies. Her future aim is to become a guidance counselor.

# Thirty-three New Members Are Added to University Faculty

(continued from page 1)

sity. Graziano joins the faculty as an instructor in psychology.

Dr. Robert Vehar, of Snyder, New York will become an instructor in music. He received his B.S. degree at Ithaca College and his M.M. degree at the Eastman School of Music.

Dr. Spencer received her B.S. degree at Pennsylvania State Teachers College, her M.S. and Ed.D. degrees at New York University. Dr. Spencer has taught in secondary schools, at Skidmore College, and more recently she was associated with the University of California.

Sidney Stein has become assistant varsity football coach and will also be a physical education instructor at the University. He has a B.A. and M.A. degree from Michigan State University and is currently a candidate for his Ph.D. degree. Stein has taught and was an assistant coach at Michigan State before coming to the University.

Miss Millnak was graduated from Brooklyn College with a B.S. degree and received her M.S. degree from the University of Illinois. She taught at the University of Illinois as a graduate assistant.

Miss Wootten will become a physical education instructor at the college. She received her B.S. degree from Tufts college and M.S. degree from Columbia University. Miss Wootten has taught in public school systems.

Dr. William Garner, 3808 Redding road, Fairfield has been named chairman of the physics department. Garner has been associated with various school systems abroad including Lord Wandsworth College of the University of London in England, Harrison College in Barbados, Quebec High school in Canada and has served as superintendent of secondary schools in Cyprus. More recently Dr. Garner was with Long Island University.

Dr. Deets, 34 Courtland avenue, Stamford received her A.B. degree at Knox college and her Ph.D. degree from the University of Iowa. She had a teaching assistantship at Iowa and was connected with the American Cyanamic Company as a research chemist. Deets will teach chemistry at the University.

Christopher Collier, of West Redding was graduated with an A.B. degree from Clark University, M.A. degree from Teachers' college, Columbia University and has completed his doctoral requirements with the exception of his dissertation at Columbia University. Collier will teach history this fall.

Donald Kuehner, 575 Atlantic street received his B.S. degree from Bishops' University and his M.A. degree from Queen's Uni-

versity. He had a teaching assistantship at Queens' University and has taught at the University of Maine. Kuehner will be teaching in the field of mathematics at the University.

Miss Munroe, formerly of Newark, New Jersey has B.A. and M.A. degrees from the University of Texas. She has been associated with Lewis-Clark Normal school and Oregon State College. Miss Munroe will become a biology instructor.

Miss Russel, of Pleasantview avenue is currently a candidate for her doctoral degree at Columbia University. She has a B.S. degree from Boston University and M.S. degree from Teachers' college at Columbia University. Miss Russel has been associated with Rutgers University and Idaho State College. She will teach in the field of sociology at the University.

Abraham Asch, 232 Dunnless road, Fairfield received a B.S. degree from Cooper Union Institute of Technology. He has served as a chief designer and division chief engineer in industry and now owns his own business, The Asch Equipment Co. Asch will be teaching in the field of mechanical engineering.

Arjan D. Ahuja is a native of India and performed his undergraduate studies at Lahore in country. He received his M.S. degree at Poly Technic Institute of Brooklyn. Ahuja was formerly associated with City College of New York and will teach electrical engineering.

Mathias Hettinger, Toilsome Hill road, Fairfield received his B.S. and M.S. degrees at the University of Connecticut. He has been associated with the University of Buffalo and with several engineering corporations. He also has been an instructor at the University of Connecticut.

Preben Jensen, of South Norwalk was graduated from the Copenhagen Institute for Engine Construction in Europe and is a candidate for his M.S. degree at Columbia University. He was formerly with Remington Rand Univac. He will teach mechanical engineering.

Robert Fletcher will teach in the field of industrial design. He received a B.F.A. degree from Rhode Island School of Design and has done graduate work at the University of Connecticut. He has been a design director in industry and is the owner of Robert Fletcher Associates.

John O. Page of Greenfield avenue, Stratford has been an electrical engineer in industry with various corporations. He will teach electrical engineering at the University.

Miss Miller, formerly of Des Moines, Iowa, performed her undergraduate studies at the University of Iowa and received a M.S. degree from the University of Washington. She has served as director of the Iowa Lutheran hospital and co-ordinator of nursing education at Drake University.

Miss Miller will be with the medical surgical department.

Miss Canty, of 38 Pacific street received her R.N. from St. Francis hospital School of Nursing and her B.S.N. from Catholic University. She has been a staff nurse and assistant supervisor with the Bridgeport Visiting Nurses association. Miss Canty will be teaching in the department of public health nursing.

Miss Healey, of 756 Hillsdale street was graduated from Boston College with a B.S.N. degree and was awarded her M.S. degree from Boston University during the past year. Miss Healey will teach in the maternal child department.

Mrs. Schulze was formerly an instructor at U.C.L.A. and will be teaching maternal child nursing. Mrs. Schulze received her B.S. degree from Barry College and her M.P.H. degree from Yale University.

Miss Krok, of 254 Bruce Ave., Stratford was graduated from

the College of Nursing at the University. She has served as head nurse at Bridgeport hospital and also in a local office. She will teach in the field of maternal child nursing.

Dr. Lord, of New Rochelle, New York, received a B.A. degree at Hunter College, M.A. degree at Columbia University and her Ph.D. degree at the Institute of Fine Arts at New York University. Lord, previously associated with Manhattanville college, will teach art appreciation.

Miss Koehler of New York City is currently a candidate for Ed.D. degree at Columbia University. She has been associated with Hartwick College, Union University School of Nursing and Skidmore College. Miss Koehler will become director of food services at the University.

Miss Marci, of Utica, New York, was graduated with a B.A. degree from Kenka College and received her M.S. degree from Syracuse University. Miss Marci has previously been an instructor on the junior college level, but more recently was executive secretary to the president of Mohawk Airlines. She is a member of New York State Business Teacher's Association, Delta Pi

Epsilon, and the National Education association. She will teach in the field of secretarial studies at UB.

Peter Schier, of Rochester, New York received his B.F.A. and M.S. degrees at Syracuse University. He has taught nine years in public and private schools and four years of part time instructing at the college level. Schier has displayed his works at the New York State Invitational, American Collectors Exhibition in Europe, and numerous art exhibitions in the Syracuse - Rochester area. He will teach art education at the University.

**CAN YOU USE A  
HUNDRED BUCKS?**

THAT'S WHAT YOU CAN WIN IN EVERY ONE OF

# VICEROY'S Big College Football Contests

**IT'S EASY!** Just pick the ten winning teams, predict the scores—and you're in the money!

**FLASH! ONLY STUDENTS ON THIS CAMPUS  
ARE ELIGIBLE!**

**FIRST CONTEST OCTOBER 7TH**

All you have to do is clip the coupon, pick the winners and predict the scores—then figure out how you're going to spend that hundred bucks! It's easy . . . just clip the coupon below or get an entry blank where you buy cigarettes and fill in your predictions of the ten game scores. Then mail it with an empty Viceroy package or a reasonable rendition of the Viceroy name as it appears on the package front to Viceroy at the Box Number on the entry blank or drop it in the ballot box conveniently located on the campus.

Open only to students and faculty members. Enter as many times as you want. Simply send an empty Viceroy package or reasonable rendition of the Viceroy name with each entry.

Entries must be postmarked or dropped in the ballot box no later than the Wednesday midnight before the games and received by noon Friday of the same week. Next contest will be on games of October 21—when you'll have another chance to win.

**DON'T SMOKE ANOTHER CIGARETTE  
UNTIL YOU LEARN WHAT  
VICEROY'S Deep Weave Filter  
CAN DO FOR YOUR TASTE!**

It can do plenty. Here's why: the Viceroy filter starts with pure, safe vegetable material, made into the same straight filter strands as most good filters.

But here's the twist: Viceroy weaves those tiny strands into the special Deep-Weave Filter . . . and that's the filter you can trust to give you the good taste of Viceroy's rich tobacco blend. The fact is . . .

Only Viceroy's Got It  
... At Both Ends!  
Got The Filter . . .  
Got The Blend!

\*Reg. U.S. Patent Office

**HERE ARE THE CONTEST RULES—READ 'EM AND WIN!**

1. Any student or faculty member on this campus may enter except employees of Brown & Williamson, its advertising agencies, or members of their immediate families. All entries become the property of Brown & Williamson—none will be returned. Winners will be notified within three weeks after each contest. Winners' names may be published in this newspaper. You may enter as often as you wish, provided each entry is sent individually. Contest subject to all governmental regulations. Entries must be postmarked or dropped in ballot box on campus no later than the Wednesday midnight before the games are played and received by noon Friday of the same week. The right to discontinue future contests is reserved.

2. Entries must be in contestant's own name. On the coupon in this ad or on an Official Entry Blank or piece of paper of the same size and format, write your predictions of the scores of the games and check the winners. Enclose an empty Viceroy package or a reasonable rendition of the Viceroy name as it appears on the package front. Mail entry to Viceroy at the Box Number on the entry blank or drop in Viceroy Football Contest Ballot Box on campus.

3. Entries will be judged by The Reuben H. Donnelly Corp. on the basis of number of winners correctly predicted. Ties will be broken on the basis of scores predicted. Duplicate prizes awarded in case of final ties.

4. Winners are eligible for any prize in subsequent contests.

**LOOK!**

**HERE ARE ALL THE PRIZES  
YOU CAN WIN!**

**1st PRIZE \$100**

**2nd PRIZE \$50**

**3rd PRIZE \$25**

**PLUS**

**5 OTHER PRIZES  
OF \$1000 EACH**

And a free carton of Viceroy's to every contestant who names all ten winning teams—REGARDLESS OF THE SCORES!

**Viceroy College Football  
CONTEST NO. 1**

Here are my predictions for next Saturday's games. Send my prize money to:
